PREFACE

Despite broad coverage of international relations in a variety of reference sources, there is currently no bibliography available that provides full Canadian coverage of the issues of international peace and security.

Recognizing this gap in reference tools, the Information Services section of the Canadian Institute for International Peace and Security decided in 1988 to produce a bibliography that would meet this need.

We hope this bibliography will prove useful to all those pursuing knowledge and understanding of the areas of international peace and security from a Canadian perspective.

INTRODUCTION

Même si les relations internationales sont souvent citées dans divers ouvrages de référence, il n'existe actuellement aucune bibliographie qui fasse l'inventaire complet de toutes les sources canadiennes de documentation sur les questions relatives à la paix et à la sécurité internationales.

Conscients de cette lacune dans le domaine des outils de référence, les Services d'Information de l'Institut canadien pour la paix et la sécurité internationales ont décidé en 1988 de constituer une bibliographie répondant à ce besoin.

Nous espérons que cette bibliographie s'avérera utile pour tous ceux et celles qui cherchent à étendre leurs connaissances et leur compréhension dans les domaines de la paix et de la sécurité internationales envisagés d'un point de vue canadien.

USER'S GUIDE

Purpose and scope of the bibliography

The aim of this bibliography is to increase access to Canadian information on international peace and security issues, in both the French and the English languages. Peace and security issues focus primarily on arms control, disarmament, defence and conflict resolution.

Sources consulted

The sources used are drawn principally from initial lists of Canadian periodicals compiled by Information Services and its Consultative Group. All non-Canadian periodicals received at the Institute (approximately 130) are also indexed for articles covering Canadian interests, or written by Canadians. A select list of periodicals consulted is found on page 7.

Literature usually available outside the regular publication and distribution channels, such as many government documents, theses, conference papers and organizational newsletters, is also included.

Government documents monitored are made up of a select number of those from departments which cover the subject area; in particular, statements, speeches and news releases from the Department of External Affairs, as well as the Canadian Foreign Policy series from that department, and news releases from the Department of National Defence.

Theses refer only to those at the Masters and Doctoral level.

The Institute's Information Services staff and members of the Consultative Group think that these sources provide the best coverage of Canadian views on issues of peace and security. Each item or article was individually examined, and only included if it was considered a useful addition to the bibliography.

GUIDE DE L'USAGER

Objet et portée de la bibliographie

La présente bibliographie vise à rendre plus accessibles les sources canadiennes d'information sur les questions relatives à la paix et à la sécurité internationales, tant en français qu'en anglais. Dans les domaines de la paix et de la sécurité, la bibliographie est axée essentiellement sur la limitation des armements, le désarmement, la défense et le règlement des conflits.

Sources consultées

Les sources utilisées sont tirées principalement de listes initiales de périodiques canadiens compilées par les Services d'Information et leur Groupe consultatif. Tous les périodiques non canadiens reçus à l'Institut (soit environ 130) sont également dépouillés : sont ainsi rassemblés les articles portant sur des questions d'intérêt pour le Canada ou écrits par des Canadiens ou des Canadiennes. Une liste sélective des périodiques consultés se trouvent à la page 7.

La bibliographie contient également des textes et documents que l'on trouve le plus souvent en dehors des circuits habituels de publication et de distribution, tels que de nombreux documents officiels, des thèses, des documents de conférence et des bulletins d'organisation.

Les documents officiels consultés sont constitués d'un nombre déterminé de documents choisis au sein des ministères oeuvrant dans le domaine en question; en particulier, des déclarations, des discours et des communiqués émanant du ministère des Affaires extérieures, ainsi que leur série entitulée Politique étrangère canadienne, et des communiqués provenant du ministère de la Défense nationale.

Les thèses consignées ne sont que des thèses de maîtrise et de doctorat.

Le personnel des Services d'Information de l'Institut et les membres du Groupe consultatif estiment que ces diverses sources sont celles qui donnent la meilleure vue d'ensemble des opinions canadiennes sur les questions de paix et de sécurité. Chaque numéro ou article a été examiné individuellement, et il n'a été inclus dans la bibliographie que dans la mesure où l'on a estimé qu'il apportait quelque chose à la bibliographie.

Time period covered

This volume covers materials published from 1985 to 1989. Future updates will be produced on an annual basis.

Arrangement

Entries are listed in alphabetical order by subject. Under each subject, arrangement is alphabetical by author; if there is no author, entries are listed alphabetically by title. Each entry has been assigned an average of four subject terms. These terms are taken from the Institute's *Peace and Security Thesaurus*.

This thesaurus is available from the Institute for those who wish to use it in conjunction with the bibliography, or who wish to use it in classifying their own peace and security collections.

Périodes envisagées

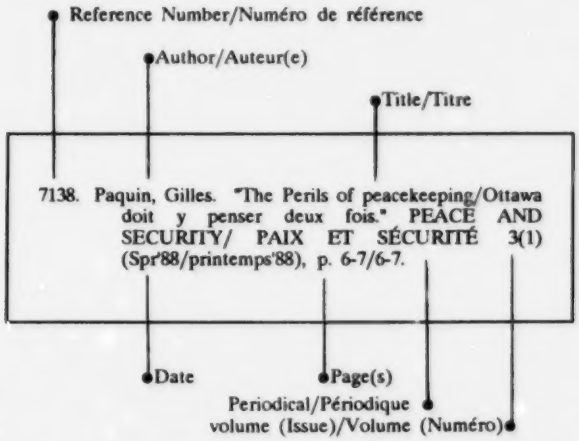
Ce volume porte sur des ouvrages publiés entre 1985 et 1989. Des mises à jour annuelles seront publiées à partir de maintenant.

Disposition

Les entrées sont classées par sujet, par ordre alphabétique. Pour chaque sujet, les entrées sont classées par ordre alphabétique des auteurs; s'il n'y a pas d'auteur, les entrées sont classées par ordre alphabétique du titre. On a attribué une moyenne de quatre rubriques par entrée. Ces rubriques sont tirées du *Thésaurus de la paix et de la sécurité*.

Ce Thésaurus est disponible à l'Institut pour ceux et celles qui voudraient s'en servir parallèlement à la bibliographie ou par ceux et celles qui veulent l'utiliser pour classer leurs propres collections d'ouvrages en matière de paix et de sécurité.

SAMPLE ENTRY / ÉCHANTILLON D'ENTRÉE



Author index

This index lists each author (individual or corporate) with an entry number, which directs the user to the appropriate citation(s) in the subject listing.

This index includes only authors who are responsible for a publication; organizations which act as publishers are not listed.

Index auteurs

Cet index dresse la liste des auteurs (particuliers ou sociétés), avec, dans chaque cas, un numéro d'entrée qui renvoie l'usager à la(aux) citation(s) correspondante(s) dans la liste des sujets.

Cet index ne comprend que les auteurs qui sont chargés d'une publication; les organismes faisant office de maison d'édition n'y figurent pas.

Updates

Additions to this bibliography are made daily, and searches are available free of charge from the Institute's database.

A Note on the Data

There are discrepancies in some of the bibliographic records. This is due to difficulties in adapting old records to current data entry standards, and in inconsistencies in the global computer changes made to the data structures. These problems will be rectified for the next update.

How can you obtain the documents from this bibliography?

If you are unable to obtain the documents listed in this bibliography either from your local or regional library, or through interlibrary loan services, the library at the Institute will provide a photocopy service.

Requests are limited to five documents at a time, with a charge of $.50 per page, plus postage.

The library will provide only one copy of an article for an individual's private research.

The library can be reached :

Mises à jour

De nouveaux titres sont ajoutés quotidiennement à cette bibliographie, et l'Institut peut effectuer gratuitement des recherches à partir de sa base de données.

Une note concernant les données

Il y a des contradictions dans quelques unes des notices bibliographiques. Cela est dû aux difficultés d'adaptation des anciennes notices aux normes présentes, et à des inconsistances dans les changements globaux automatisés faits à la structure des données. Ces problèmes seront rectifiés lors de la prochaine mise à jour.

Comment vous procurer les ouvrages cités dans cette bibliographie ?

Si vous ne trouvez pas les ouvrages cités dans cette bibliographie à la bibliothèque de votre quartier ou de votre région ou par le moyen du prêt entre bibliothèques, la bibliothèque de l'Institut dispose d'un service de photocopie.

Vous ne pouvez demander que cinq documents à la fois; le prix est de 0,50 $ par page, plus l'affranchissement.

La bibliothèque ne fournit qu'un seul exemplaire d'un article quand il s'agit d'une recherche privée menée par un particulier.
